Student Discipline on School Buses

So far this year, we have had more behavior problems on the buses than usual. We have relied heavily on the cameras in the buses. Unfortunately not all the buses have cameras. We will work towards having one camera per bus.

No single group has been causing the problems. This past Friday, all the drivers participated in training on how we might be able to better curb some of these issues. Some steps we have in place are using assigned seating, "Bus" slips for communication regarding poor behavior, and "Busted" slips for recognizing good behavior.
